Guidance Policies for ICT Acceptable Use

Contents

<u>Introduction</u>

ICT in the 21st Century is seen as an essential resource to support learning and teaching, as well as playing an important role in the everyday lives of children, young people and adults. Consequently, schools need to build in the use of these technologies in order to arm our young people with the skills to access life-long learning and employment.

Information and Communications Technology covers a wide range of resources including; web-based and mobile learning. It is also important to recognise the constant and fast paced evolution of ICT within our society as a whole. Currently the internet technologies children and young people are using both inside and outside of the classroom include:

- Websites

- E-mail, Instant Messaging and chat rooms

- Social Media, including Facebook and Twitter

- Mobile/Smart phones with text, video and/or web functionality

- Other mobile devices with web functionality

- Gaming, especially online

- Learning Platforms and Virtual Learning Environments

- Blogs and Wikis

- Podcasting

- Video Broadcasting

- Music Downloading

Whilst exciting and beneficial both in and out of the context of education, much ICT, particularly web-based resources, are not consistently policed. All users need to be aware of the range of risks associated with the use of these Internet technologies and that some have minimum age requirements, usually 13 years.

At St Nicholas Priory School we understand the responsibility to educate our pupils on eSafety issues; teaching them the appropriate behaviours and critical thinking skills to enable them to remain both safe and legal when using the internet and related technologies, in and beyond the context of the classroom.

Schools hold personal data on learners, staff and other people to help them conduct their day-to-day activities. Some of this information is sensitive and could be used by another person or criminal organisation to cause harm or distress to an individual. The loss of sensitive information can result in media coverage, and potentially damage the reputation of the school. This can make it more difficult for the school to use technology to benefit learners.

Everybody in the school has a shared responsibility to secure any sensitive information used in their day to day professional duties and even staff not directly involved in data handling should be made aware of the risks and threats and how to minimise them.

Both this policy and the Acceptable Use Agreement (for all staff, governors, visitors and pupils) are inclusive of both fixed and mobile internet; technologies provided by the school (such as PCs, laptops, mobile devices, webcams, whiteboards, voting systems, digital video equipment, etc); and technologies owned by pupils and staff, but brought onto school premises (such as laptops, mobile phones and other mobile devices).

Monitoring

Authorised ICT staff may inspect any ICT equipment owned or leased by the school at any time without prior notice. If you are in doubt as to whether the individual requesting such access is authorised to do so, please ask for their identification badge and contact their department. Any ICT authorised staff member will be happy to comply with this request.

ICT authorised staff may monitor, intercept, access, inspect, record and disclose telephone calls, e-mails, instant messaging, internet/intranet use and any other electronic communications (data, voice or image) involving its employees or contractors, without consent, to the extent permitted by law. This may be to confirm or obtain school business related information; to confirm or investigate compliance with school policies, standards and procedures; to ensure the effective operation of school ICT; for quality control or training purposes; to comply with a Subject Access Request under the Data Protection Act 1998, or to prevent or detect crime.

ICT authorised staff may, without prior notice, access the e-mail or voice-mail account where applicable, of someone who is absent in order to deal with any business-related issues retained on that account.

All monitoring, surveillance or investigative activities are conducted by ICT authorised staff and comply with the Data Protection Act 1998, the Human Rights Act 1998, the Regulation of Investigatory Powers Act 2000 (RIPA) and the Lawful Business Practice Regulations 2000.

Please note that personal communications using School ICT may be unavoidably included in any business communications that are monitored, intercepted and/or recorded.

Breaches

A breach or suspected breach of policy by a school employee, contractor or pupil may result in the temporary or permanent withdrawal of school ICT hardware, software or services from the offending individual.

Any policy breach is grounds for disciplinary action in accordance with the school Disciplinary Procedure.

Policy breaches may also lead to criminal or civil proceedings.

The ICO's new powers to issue monetary penalties came into force on 6 April 2010, allowing the Information Commissioner's office to serve notices requiring organisations to pay up to £500,000 for serious breaches of the Data Protection Act.

The data protection powers of the Information Commissioner's Office are to:

- Conduct assessments to check organisations are complying with the Act
- Serve information notices requiring organisations to provide the Information Commissioner's Office with specified information within a certain time period.
- Serve enforcement notices and 'stop now' orders where there has been a breach of the Act, requiring organisations to take (or refrain from taking) specified steps in order to ensure they comply with the law
- Prosecute those who commit criminal offences under the Act
- Conduct audits to assess whether organisations processing of personal data follows good practice
- Report to Parliament on data protection issues of concern

Incident Reporting

Any security breaches or attempts, loss of equipment and any unauthorised use or suspected misuse of ICT must be immediately reported to the school's ICT Technician. Additionally, all security breaches, lost/stolen equipment or data (including remote access Secure ID tokens and PINs), virus notifications, unsolicited emails, misuse or unauthorised use of ICT and all other policy non-compliance must be reported to your ICT Technician.

Please refer to the relevant section on Incident Reporting, eSafety Incident Log & Infringements.

Acceptable Use Agreement: Pupils

- I will only use ICT systems in school, including the internet, e-mail, digital video, and mobile technologies for school purposes.

- I will not download or install software on school technologies.

- I will only log on to the school network, other systems and resources with my own user name and password.

- I will follow the schools ICT security system and not reveal my passwords to anyone and change them regularly.

- I will only use my school e-mail address.

- I will make sure that all ICT communications with pupils, teachers or others is responsible and sensible.

- I will be responsible for my behavior when using the Internet. This includes resources I access and the language I use.

- I will not deliberately browse, download, upload or forward material that could be considered offensive or illegal.   If I accidentally come across any such material I will report it immediately to my teacher.

- I will not give out any personal information such as name, phone number or address. I will not arrange to meet someone unless this is part of a school project approved by my teacher.

- Images of pupils and/or staff will only be taken, stored and used for school purposes in line with school policy and not be distributed outside the school network without permission.

- I will ensure that my online activity, both in school and outside school, will not cause my school, the staff, pupils or others distress or bring into disrepute.

- I will support the school approach to online safety and not deliberately upload or add any images, video, sounds or text that could upset any member of the school community

- I will respect the privacy and ownership of others' work on-line at all times.

- I will not attempt to bypass the internet filtering system.

- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available to my teachers.

- I understand that these rules are designed to keep me safe and that if they are not followed, school sanctions will be applied and my parent/ carer may be contacted.

Dear Parent/ Carer

ICT including the internet, e-mail, mobile technologies and online resources have become an important part of learning in our school.   We expect all pupils to be safe and responsible when using any ICT. It is essential that pupils are aware of eSafety and know how to stay safe when using any ICT.

Pupils are expected to read and discuss this agreement with their parent or carer and then to sign and follow the terms of the agreement. Any concerns or explanation can be discussed with their class teacher or St Nicholas Priory School's eSafety coordinator.

Please return the bottom section of this form to school for filing.

✂--

Pupil and Parent / Carer signature
We have discussed this document and …………………………………….............(pupil name) agrees to follow the eSafety rules and to support the safe and responsible use of ICT at St Nicholas Priory School.

Parent/ Carer Signature …………………………………………………….

Pupil Signature……………………………………………………………….

Form ………………………………. Date ………………………………

Acceptable Use Agreement :

Staff, Governors and Visitors

ICT (including data) and the related technologies such as e-mail, the internet and mobile devices are an expected part of our daily working life in school. This policy is designed to ensure that all staff are aware of their professional responsibilities when using any form of ICT. All staff are expected to sign this policy and adhere at all times to its contents. Any concerns or clarification should be discussed with St Nicholas Priory School eSafety coordinator or the school's ICT Technician.

I will only use the school's email / Internet / Intranet / Learning Platform and any related technologies for professional purposes or for uses deemed 'reasonable' by the Headteacher or Governing Body.

- I will comply with the ICT system security and not disclose any passwords provided to me by the school or other related authorities.
- I will ensure that all electronic communications with pupils and staff are compatible with my professional role.
- I will not give out my own personal details, such as mobile phone number and personal e-mail address, to pupils or friend them on Facebook.
- I will only use the approved, secure e-mail system(s) for any school business.
- I will ensure that personal data (such as data held on MIS software) is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely. Personal data can only be taken out of school or accessed remotely when authorised by the Head or Governing Body.
- Personal or sensitive data taken off site must be encrypted.
- I will not install any hardware of software without permission of the Network Manager.
- I will not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.
- Images of pupils and/ or staff will only be taken, stored and used for professional purposes in line with school policy and with written consent of the parent, carer or staff member. Images will not be distributed outside the school network without the permission of the parent/ carer, member of staff or Headteacher.
- I will support the school approach to online safety and not deliberately upload or add any images, video, sounds or text that could upset any member of the school community.
- I understand that all my use of the Internet and other related technologies can be monitored and logged and can be made available, on request, to my Line Manager or Headteacher. I will respect copyright and intellectual property rights.
- I will ensure that my online activity, both in school and outside school, will not bring my professional role into disrepute.
- I will support and promote the school's e-Safety and Data Security policies and help pupils to be safe and responsible in their use of ICT and related technologies.
- I understand this forms part of the terms and conditions set out in my contract of employment.

User Signature
I agree to follow this code of conduct and to support the safe and secure use of ICT throughout the school

Staff Professional Responsibilities

The HSCB eSafety subgroup group have produced a clear summary of **professional responsibilities related to the use of ICT** which has been endorsed by unions.

PROFESSIONAL RESPONSIBILITIES
When using any form of ICT, including the Internet, in school and outside school

For your own protection we advise that you:

➢ Ensure all electronic communication with pupils, parents, carers, staff and others is compatible with your professional role and in line with school policies.

➢ Do not talk about your professional role in any capacity when using social media such as Facebook and YouTube.

➢ Do not put online any text, image, sound or video that could upset or offend any member of the whole school community or be incompatible with your professional role.

➢ Use school ICT systems and resources for all school business. This includes your school email address, school mobile phone and school video camera.

➢ Do not give out your own personal details, such as mobile phone number, personal e-mail address or social network details to pupils, parents, carers and others.

➢ Do not disclose any passwords and ensure that personal data (such as data held on MIS software) is kept secure and used appropriately.

➢ Only take images of pupils and/ or staff for professional purposes, in accordance with school policy and with the knowledge of SLT.

➢ Do not browse, download, upload or distribute any material that could be considered offensive, illegal or discriminatory.

➢ Ensure that your online activity, both in school and outside school, will not bring your organisation or professional role into disrepute.

You have a duty to report any eSafety incident which may impact on you, your professionalism or your organisation.

Computer Viruses

- All files downloaded from the Internet, received via e-mail or on removable media such as a memory stick must be checked for any viruses using school provided anti-virus software before being used

- Never interfere with any anti-virus software installed on school ICT equipment that you use

- If your machine is not routinely connected to the school network, you must make provision for regular virus updates through your IT team

- If you suspect there may be a virus on any school ICT equipment, stop using the equipment and contact your ICT support provider immediately. The ICT support provider will advise you what actions to take and be responsible for advising others that need to know

e-Mail

The use of e-mail within most schools is an essential means of communication for both staff and pupils. In the context of school, e-mail should not be considered private. Educationally, e-mail can offer significant benefits including; direct written contact between schools on different projects, be they staff based or pupil based, within school or international. We recognise that pupils need to understand how to style an e-mail in relation to their age and good network etiquette;'netiquette'.

Managing e-Mail

- The school gives all staff their own e-mail account to use for all school business as a work based tool This is to protect staff, minimise the risk of receiving unsolicited or malicious e-mails and avoids the risk of personal profile information being revealed

- It is the responsibility of each account holder to keep the password secure. For the safety and security of users and recipients, all mail is filtered and logged; if necessary e-mail histories can be traced. The school email account should be the account that is used for all school business

- Under no circumstances should staff contact pupils, parents or conduct any school business using personal e-mail addresses

- The school requires a standard disclaimer to be attached to all e-mail correspondence, stating that, 'the views expressed are not necessarily those of the school or the LA'. The responsibility for adding this disclaimer lies with the account holder

- All e-mails should be written and checked carefully before sending, in the same way as a letter written on school headed paper

- Staff sending e-mails to external organisations, parents or pupils are advised to cc. the Headteacher, line manager or designated account

- Pupils may only use school approved accounts on the school system and only under direct teacher supervision for educational purposes

- E-mails created or received as part of your school job will be subject to disclosure in response to a request for information under the Freedom of Information Act 2000. You must therefore actively manage your e-mail account as follows:

  – Delete all e-mails of short-term value
  – Organise e-mail into folders and carry out frequent house-keeping on all folders and archives

- The forwarding of chain letters is not permitted in school.

- All pupil e-mail users are expected to adhere to the generally accepted rules of netiquette particularly in relation to the use of appropriate language and not revealing any personal details about themselves or others in e-mail communication, or arrange to meet anyone without specific permission, virus checking attachments

11

- Pupils must immediately tell a teacher/trusted adult if they receive an offensive e-mail

- Staff must inform (the line manager) if they receive an offensive e-mail

- However you access your school e-mail (whether directly, through webmail when away from the office or on non-school hardware) all the school e-mail policies apply

Sending e-Mails

- If sending e-mails containing personal, confidential, classified or financially sensitive data to external third parties or agencies, refer to the Section **e-mailing Personal, Sensitive, Confidential or Classified Information**

- Use your own school e-mail account so that you are clearly identified as the originator of a message

- Keep the number and relevance of e-mail recipients, particularly those being copied, to the minimum necessary and appropriate

- Do not send or forward attachments unnecessarily. Whenever possible, send the location path to the shared drive rather than sending attachments

- School e-mail is not to be used for personal advertising

Receiving e-Mails

- Check your e-mail regularly

- Activate your 'out-of-office' notification when away for extended periods

- Never open attachments from an untrusted source; Consult your network manager first

- Do not use the e-mail systems to store attachments. Detach and save business related work to the appropriate shared drive/folder

- The automatic forwarding and deletion of e-mails is not allowed

e-mailing Personal, Sensitive, Confidential or Classified Information

- Where your conclusion is that e-mail must be used to transmit such data:

  − Obtain express consent from your manager to provide the information by e-mail
  − Exercise caution when sending the e-mail and always follow these checks before releasing the e-mail:

    o Encrypt and password protect. See Network Manger
    o Verify the details, including accurate e-mail address, of any intended recipient of the information
    o Verify (by phoning) the details of a requestor before responding to e-mail requests for information
    o Do not copy or forward the e-mail to any more recipients than is absolutely necessary

  − Do not send the information to any body/person whose details you have been unable to separately verify (usually by phone)
  − Send the information as an encrypted document **attached** to an e-mail
  − Provide the encryption key or password by a **separate** contact with the recipient(s)
  − Do not identify such information in the subject line of any e-mail
  − Request confirmation of safe receipt

Equal Opportunities

Pupils with Additional Needs
The school endeavours to create a consistent message with parents for all pupils and this in turn should aid establishment and future development of the schools' eSafety rules.

However, staff are aware that some pupils may require additional support or teaching including reminders, prompts and further explanation to reinforce their existing knowledge and understanding of eSafety issues.

Where a pupil has poor social understanding, careful consideration is given to group interactions when raising awareness of eSafety. Internet activities are planned and well managed for these children and young people.

eSafety

eSafety - Roles and Responsibilities

As eSafety is an important aspect of strategic leadership within the school, the Headteacher and governors have ultimate responsibility to ensure that the policy and practices are embedded and monitored. The eSafety co-oordinator in this school is the Safeguarding Team who have been designated this role by the senior leadership team. All members of the school community have been made aware of who holds this post. It is the role of the eSafety co-ordinator to keep abreast of current issues and guidance through organisations such as CEOP (Child Exploitation and Online Protection) and Childnet.

Senior Leadership and governors are updated by the Headteacher / eSafety co-ordinator and all governors have an understanding of the issues and strategies at our school in relation to local and national guidelines and advice.

This policy, supported by the school's acceptable use agreements for staff, governors, visitors and pupils, is to protect the interests and safety of the whole school community. It is linked to the following mandatory school policies: child protection, health and safety, home–school agreements, and behaviour/pupil discipline (including the anti-bullying) policy and PSHE

eSafety in the Curriculum
ICT and online resources are increasingly used across the curriculum. We believe it is essential for eSafety guidance to be given to the pupils on a regular and meaningful basis. eSafety is embedded within our curriculum and we continually look for new opportunities to promote eSafety.

- The school has a framework for teaching internet skills in lessons

- The school provides opportunities within a range of curriculum areas to teach about eSafety

- Educating pupils about the online risks that they may encounter outside school is done informally when opportunities arise and as part of the eSafety curriculum and through assembly

- Pupils are aware of the relevant legislation when using the internet such as data protection and intellectual property which may limit what they want to do but also serves to protect them

- Pupils are taught about copyright, respecting other people's information, safe use of images and other important areas through discussion, modeling and appropriate activities

- Pupils are aware of the impact of Cyberbullying and know how to seek help if they are affected by any form of online bullying. Pupils are also aware of where to seek advice or help if they experience problems when using the internet and related technologies; i.e. parent/carer, teacher/trusted staff member, or an organisation

such as Cybermentors, Childline or CEOP report abuse button

- Pupils are taught to critically evaluate materials and learn good searching skills through cross curricular teacher models, discussions and via the ICT curriculum

eSafety Skills Development for Staff

- Our staff receive regular information and training on eSafety and how they can promote the 'Stay Safe' online messages as part of the ongoing safeguarding training

- New staff receive information on the school's acceptable use policy as part of their induction

- All staff have been made aware of their individual responsibilities relating to the safeguarding of children within the context of eSafety and know what to do in the event of misuse of technology by any member of the school community

- All staff are encouraged to incorporate eSafety activities and awareness within their curriculum areas

Managing the School eSafety Messages

- We endeavour to embed eSafety messages across the curriculum whenever the internet and/or related technologies are used

- The eSafety policy will be introduced to the pupils at the start of each school year

- eSafety posters will be prominently displayed

- The key eSafety advice will be promoted widely through school displays, newsletters, class activities and so on

Incident Reporting, eSafety Incident Log & Infringements

Incident Reporting

Any security breaches or attempts, loss of equipment and any unauthorised use or suspected misuse of ICT must be immediately reported to the school's Network Manager. Additionally, all security breaches, lost/stolen equipment or data (including remote access Secure ID tokens and PINs), virus notifications, unsolicited emails, misuse or unauthorised use of ICT and all other policy non-compliance must be reported to the ICT Team.

eSafety Incident Log

Keeping an incident log can be a good way of monitoring what is happening and identify trends or specific concerns.

Misuse and Infringements

Complaints

Complaints and/ or issues relating to eSafety should be made to the ICT Team or Headteacher. All Incidents should be logged.

Inappropriate Material

- All users are aware of the procedures for reporting accidental access to inappropriate materials. The breach must be immediately reported to the ICT Team

- Deliberate access to inappropriate materials by any user will lead to the incident being logged by the ICT team, depending on the seriousness of the offence; investigation by the Headteacher, immediate suspension, possibly leading to dismissal and involvement of police for very serious offences

- Users are made aware of sanctions relating to the misuse or misconduct by the guidance for safer working practice for adults who work with children and with people in Education set up

<u>Internet Access</u>

The internet is an open worldwide communication medium, available to everyone, at all times. Anyone can view information, send messages, discuss ideas and publish material which makes it both an invaluable resource for education, business and social interaction, as well as a potential risk to young and vulnerable people Whenever any inappropriate use is detected it will be followed up.

Managing the Internet

- The school provides pupils with supervised access to Internet resources (where reasonable) through the school's fixed and mobile internet connectivity

- Staff will preview any recommended sites before use

- Raw image searches are discouraged when working with pupils

- If Internet research is set for homework, specific sites will be suggested that have previously been checked by the teacher. It is advised that parents recheck these sites and supervise this work. Parents will be advised to supervise any further research

- All users must observe software copyright at all times. It is illegal to copy or distribute school software or illegal software from other sources

- All users must observe copyright of materials from electronic resources

Internet Use

- You must not post personal, sensitive, confidential or classified information or disseminate such information in any way that may compromise the intended restricted audience

- Do not reveal names of colleagues, pupils, others or any other confidential information acquired through your job on any social networking site or other online application

- On-line gambling or gaming is not allowed

It is at the Headteacher's discretion as to what internet activities are permissible for staff and pupils and how this is disseminated.

Infrastructure

- School internet access is controlled through the schools filtering service

- St Nicholas Priory School is aware of its responsibility when monitoring staff communication under current legislation and takes into account; Data Protection Act 1998, The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, Regulation of Investigatory Powers Act 2000,

Human Rights Act 1998

- Staff and pupils are aware that school based email and internet activity can be monitored and explored further if required

- The school does not allow pupils access to internet logs

- The school uses management control tools for controlling and monitoring workstations

- If staff or pupils discover an unsuitable site, the screen must be switched off/ closed and the incident reported immediately to the e-safety coordinator or teacher as appropriate

- It is the responsibility of the school, by delegation to the network manager, to ensure that anti-virus protection is installed and kept up-to-date on all school machines

- Pupils and staff are not permitted to download programs or files on school based technologies without it being educational. All members of staff sign the lap top use policy *(the Headteacher/technician/ICT subject leader)*

- If there are any issues related to viruses or anti-virus software, the network manager should be informed

Managing Social Media

Online technologies, if used responsibly both outside and within an educational context can provide easy to use, creative, collaborative and free facilities. However it is important to recognise that there are issues regarding the appropriateness of some content, contact, culture and commercialism. To this end, we encourage our pupils to think carefully about the way that information can be added and removed by all users, including themselves, from these sites.

- At present, the school endeavors to deny access to social networking and online games websites to pupils within school

- All pupils are advised to be cautious about the information given by others on such websites, for example users not being who they say they are

- Pupils are taught to avoid placing images of themselves (or details within images that could give background details) on such websites and to consider the appropriateness of any images they post due to the difficulty of removing an image once online

- Pupils are always reminded to avoid giving out personal details on websites which may identify them or where they are (full name, address, mobile/ home phone numbers, school details, IM/ email address, specific hobbies/ interests)

- Our pupils are advised to set and maintain their online profiles to maximum privacy and deny access to unknown individuals

- Pupils are encouraged to be wary about publishing specific and detailed private

thoughts and information online

- Our pupils are asked to report any incidents of Cyberbullying to the school

- Staff may only create blogs, wikis or other online areas in order to communicate with pupils using the school learning platform or other systems approved by the Headteacher

Parental Involvement

We believe that it is essential for parents/carers to be fully involved with promoting eSafety both in and outside of school and to be aware of their responsibilities. We regularly consult and discuss eSafety with parents/carers and seek to promote a wide understanding of the benefits of new technologies, together with the associated risks.

- Parents/carers and pupils are actively encouraged to contribute to adjustments

- Parents/carers are asked to read through and sign acceptable use agreements on behalf of their child on admission to the school

- Parents/carers are required to make a decision as to whether they consent to images of their child being taken and used in the public domain (e.g., on school website)

- Parents/carers are expected to sign a Home School agreement containing the following statement or similar

  → **We will support the school approach to on-line safety and not deliberately upload or add any text, image, sound or videos that could upset or offend any member of the school community**

- The school disseminates information to parents relating to eSafety where appropriate in the form of;

  o Practical training sessions e.g. How to adjust the Facebook privacy settings
  o Posters
  o School website
  o Newsletter items

Passwords and Password Security

Passwords

- **Always use your own** personal passwords

- Make sure you enter your personal passwords each time you logon. Do not include passwords in any automated logon procedures

- Staff should change temporary passwords at first logon

- Change passwords whenever there is any indication of possible system or password compromise

- Do not record passwords or encryption keys on paper or in an unprotected file

- **Only disclose your personal password to authorised ICT support staff when necessary, and never to anyone else**. Ensure that all personal passwords that have been disclosed are changed once the requirement is finished

- **Never tell a child or colleague your password**

- **If you aware of a breach of security with your password or account inform the ICT Team immediately**

- Passwords must contain a minimum of seven characters and be difficult to guess

- Passwords should contain a mixture of upper and lowercase letters, numbers and symbols

- User ID and passwords for staff and pupils who have left the school are removed from the system on the date contracts are terminated / they are removed from roll. The normal practice of the school is not to issue usernames and passwords to employees prior to their contract commencing.

If you think your password may have been compromised or someone else has become aware of your password report this to your ICT support team

Password Security

Password security is essential for staff, particularly as they are able to access and use pupil data. Staff are expected to have secure passwords which are not shared with anyone. The pupils are expected to keep their passwords private and not to share with others, particularly their friends. Staff and pupils are regularly reminded of the need for password security.

- All users read and sign an Acceptable Use Agreement to demonstrate that they have understood the school's e-Safety Policy and Data Security

- Users are provided with an individual network, email, learning platform and Management Information System (where appropriate) log-in username. They are also expected to use a personal password and keep it private

- Staff are aware of their individual responsibilities to protect the security and confidentiality of the school networks, MIS systems and/or learning platform, including ensuring that passwords are not shared and are changed periodically. Individual staff users must also make sure that workstations are not left

unattended and are locked.

- Due consideration should be given when logging into the school learning platform, virtual learning environment or other online application to the browser/cache options (shared or private computer)

- In our school, all ICT password policies are the responsibility of **the ICT Team** and all staff and pupils are expected to comply with the policies at all times

Zombie Accounts

Zombie accounts refers to accounts belonging to users who have left the school and therefore no longer have authorised access to the school's systems. Such Zombie accounts when left active can cause a security threat by allowing unauthorised access.

- Ensure that all user accounts are disabled once the member of the school has left

- Prompt action on disabling accounts will prevent unauthorised access

- Pupils/staff leaving during term time are a particular focus for zombie accounts

Personal Information Promise

The Information Commissioner's Office launched a Personal Information Promise in January 2009. Schools may wish to sign up to this promise which is shown below.

The personal information promise is:

I (name and title), on behalf of (name of organisation) promise that we will:

1. value the personal information entrusted to us and make sure we respect that trust;

2. go further than just the letter of the law when it comes to handling personal information, and adopt good practice standards;

3. consider and address the privacy risks first when we are planning to use or hold personal information in new ways, such as when introducing new systems;

4. be open with individuals about how we use their information and who we give it to;

5. make it easy for individuals to access and correct their personal information;

6. keep personal information to the minimum necessary and delete it when we no longer need it;

7. have effective safeguards in place to make sure personal information is kept securely and does not fall into the wrong hands;

8. provide training to staff who handle personal information and treat it as a disciplinary matter if they misuse or don't look after personal information properly;

9. put appropriate financial and human resources into looking after personal information to make sure we can live up to our promises; and

10. regularly check that we are living up to our promises and report on how we are doing

Personal or Sensitive Information

Protecting Personal, Sensitive, Confidential and Classified Information

- Ensure that any school information accessed from your own PC or removable media equipment is kept secure

- Ensure you lock your screen before moving away from your computer during your normal working day to prevent unauthorised access

- Ensure the accuracy of any personal, sensitive, confidential and classified information you disclose or share with others

- Ensure that personal, sensitive, confidential or classified information is not disclosed to any unauthorised person

- Ensure the security of any personal, sensitive, confidential and classified information contained in documents you fax, copy, scan or print. This is particularly important when shared mopiers (multi-function print, fax, scan and copiers) are used and when access is from a non-school environment

- Only download personal data from systems if expressly authorised to do so by your manager

- You must not post on the internet personal, sensitive, confidential, or classified information, or disseminate such information in any way that may compromise its intended restricted audience

- Keep your screen display out of direct view of any third parties when you are accessing personal, sensitive, confidential or classified information

- Ensure hard copies of data are securely stored and disposed of after use in accordance with the document labeling

Storing/Transferring Personal, Sensitive, Confidential or Classified Information Using Removable Media

- Ensure removable media is purchased with encryption

- Store all removable media securely

- Securely dispose of removable media that may hold personal data

- Encrypt all files containing personal, sensitive, confidential or classified data

- Ensure hard drives from machines no longer in service are removed and stored securely or wiped clean

Please refer to the document on the grid for guidance on How to Encrypt Files

- http://www.thegrid.org.uk/info/dataprotection/index.shtml#securedata

Remote Access

- You are responsible for all activity via your remote access facility

- Only use equipment with an appropriate level of security for remote access

- To prevent unauthorised access to school systems, keep all dial-up access information such as telephone numbers, logon IDs and PINs confidential and do not disclose them to anyone

- Select PINs to ensure that they are not easily guessed, e.g. do not use your house or telephone number or choose consecutive or repeated numbers

- Avoid writing down or otherwise recording any network access information. Any such information that is written down must be kept in a secure place and disguised so that no other person will be able to identify what it is

- Protect school information and data at all times, including any printed material produced while using the remote access facility. Take particular care when access is from a non-school environment

Safe Use of Images

Taking of Images and Film

Digital images are easy to capture, reproduce and publish and, therefore, misuse. We must remember that it is not always appropriate to take or store images of any member of the school community or public, without first seeking consent and considering the appropriateness.

- With the written consent of parents (on behalf of pupils) and staff, the school permits the appropriate taking of images by staff and pupils with school equipment

- Staff are not permitted to use personal digital equipment, such as mobile phones and cameras, to record images of pupils, this includes when on field trips. However with the express permission of the Headteacher, images can be taken provided they are transferred immediately and solely to the school's network and deleted from the staff device

- Pupils are not permitted to use personal digital equipment, including mobile phones and cameras, to record images of pupils, staff and others without advance permission from the Headteacher

- Pupils and staff must have permission from the Headteacher before any image can be uploaded for publication

Publishing Pupil's Images and Work

On a child's entry to the school, all parents/carers will be asked to give permission to use their child's work/photos in the following ways:

- on the school web site

- in the school prospectus and other printed publications that the school may produce for promotional purposes

- recorded/ transmitted on a video or webcam

- on the school's learning platform or Virtual Learning Environment

- in display material that may be used in the school's communal areas

- in display material that may be used in external areas, ie exhibition promoting the school

- general media appearances, eg local/national media/press releases sent to the press highlighting an activity (sent using traditional methods or electronically)

This consent form is considered valid for the entire period that the child attends this school unless there is a change in the child's circumstances where consent could be an issue, eg divorce of parents, custody issues, etc.

Parents or carers may withdraw permission, in writing, at any time. Consent has to be given by both parents in order for it to be deemed valid.

E-mail and postal addresses of pupils will not be published. Pupils' full names will not be published.

Before posting student work on the Internet, a check needs to be made to ensure that permission has been given for work to be displayed.

Only the ICT team has authority to upload to the site.

Storage of Images

- Images/films of children are stored on the school's

- Pupils and staff are not permitted to use personal portable media for storage of images (e.g., USB sticks) without the express permission of the Headteacher

- Rights of access to this material are restricted to the teaching staff and pupils within the confines of the school network or other online school resource

- The ICT Team has the responsibility of managing the images when they are no longer required, or when the pupil has left the school

Video Conferencing

- Permission is sought from parents and carers if their children are involved in video conferences

- Permission is sought from parents and carers if their children are involved in video conferences with end-points outside of the school

- All pupils are supervised by a member of staff when video conferencing

- All pupils are supervised by a member of staff when video conferencing with end-points beyond the school

- The school keeps a record of video conferences, including date, time and participants.

- Approval from the Headteacher is sought prior to all video conferences within school

- The school conferencing equipment is not set to auto-answer and is only switched on for scheduled and approved conferences

- No part of any video conference is recorded in any medium without the written consent of those taking part

Additional points to consider:

- Participants in conferences offered by 3rd party organisations may not be DBS checked

- Conference supervisors need to be familiar with how to use the video conferencing equipment, particularly how to end a call if at any point any person taking part becomes unhappy with the content of the conference

School ICT Equipment including Portable & Mobile ICT Equipment & Removable Media

School ICT Equipment

- As a user of the school ICT equipment, you are responsible for your activity

- It is recommended that schools log ICT equipment issued to staff and record serial numbers as part of the school's inventory

- Do not allow your visitors to plug their ICT hardware into the school network points (unless special provision has been made). They should be directed to the wireless ICT facilities if available

- Ensure that all ICT equipment that you use is kept physically secure

- Do not attempt unauthorised access or make unauthorised modifications to computer equipment, programs, files or data. This is an offence under the Computer Misuse Act 1990

- It is imperative that you save your data on a frequent basis to the school's network. You are responsible for the backup and restoration of any of your data that is not held on the school's network

- Personal or sensitive data should not be stored on the local drives of desktop PC, laptop, USB memory stick or other portable device. If it is necessary to do so the local drive must be encrypted

- Privately owned ICT equipment should not be used on a school network

- On termination of employment, resignation or transfer, return all ICT equipment to your Manager. You must also provide details of all your system logons so that they can be disabled

- It is your responsibility to ensure that any information accessed from your own PC or removable media equipment is kept secure, and that no personal, sensitive, confidential or classified information is disclosed to any unauthorised person

- All ICT equipment allocated to staff must be authorised by the appropriate Line Manager. Authorising Managers are responsible for:

  o maintaining control of the allocation and transfer within their Unit
  o recovering and returning equipment when no longer needed

- All redundant ICT equipment is disposed of in accordance with Waste Electrical and Electronic Equipment (WEEE) directive and Data Protection Act (DPA)

Portable & Mobile ICT Equipment

This section covers such items as laptops, mobile devices and removable data storage devices. Please refer to the relevant sections of this document when considering storing or transferring personal or sensitive data

- All activities carried out on school systems and hardware will be monitored in accordance with the general policy

- Staff must ensure that all school data is stored on the school network, and not kept solely on the laptop. Any equipment where personal data is likely to be stored must be encrypted

- Equipment must be kept physically secure in accordance with this policy to be covered for insurance purposes. When travelling by car, best practice is to place the laptop in the boot of your car before starting your journey

- Synchronise all locally stored data, including diary entries, with the central school network server on a frequent basis

- Ensure portable and mobile ICT equipment is made available as necessary for anti-virus updates and software installations, patches or upgrades

- The installation of any applications or software packages must be authorised by the ICT support team, fully licensed and only carried out by your ICT support

- In areas where there are likely to be members of the general public, portable or mobile ICT equipment must not be left unattended and, wherever possible, must be kept out of sight

- Portable equipment must be transported in its protective case if supplied

Mobile Technologies

Many emerging technologies offer new opportunities for teaching and learning including a move towards personalised learning and 1:1 device ownership for children and young people. Mobile technologies such Smartphones, Blackberries, iPads, games players, are generally very familiar to children outside of school. They often provide a collaborative, well-known device with possible internet access and thus open up risk and misuse associated with communication and internet use. Emerging technologies will be examined for educational benefit and the risk assessed before use in school is allowed. Our school chooses to manage the use of these devices in the following ways so that users exploit them appropriately.

Personal Mobile Devices (including phones)

- The school allows staff to bring in personal mobile phones and devices for their own use. Under no circumstances does the school allow a member of staff to contact a pupil or parent/ carer using their personal device

- Pupils are allowed to bring personal mobile devices/phones to school but must not use them for personal purposes within school hours.   At all times the device must be switched off

- This technology may be used for educational purposes, as mutually agreed with the Headteacher. The device user, in this instance, must always ask the prior permission of the bill payer

- The school is not responsible for the loss, damage or theft of any personal mobile device

- The sending of inappropriate text messages between any member of the school community is not allowed

- Permission must be sought before any image or sound recordings are made on these devices of any member of the school community

- Users bringing personal devices into school must ensure there is no inappropriate or illegal content on the device

School Provided Mobile Devices (including phones)
- The sending of inappropriate text messages between any member of the school community is not allowed

- Permission must be sought before any image or sound recordings are made on the devices of any member of the school community

- Where the school provides mobile technologies such as phones, laptops and tablets for offsite visits and trips, only these devices should be used

- Where the school provides a laptop for staff, only this device may be used to conduct school business outside of school

Removable Media

- Always consider if an alternative solution already exists
- Only use recommended removable media
- Encrypt and password protect
- Store all removable media securely
- Removable media must be disposed of securely by your ICT support team

Servers

- Always keep servers in a locked and secure environment

- Limit access rights

- Always password protect and lock the server

- Existing servers should have security software installed appropriate to the machine's specification

- Back up tapes should be encrypted by appropriate software

- Data must be backed up regularly

Social Media

Facebook, Twitter and other forms of social media are increasingly becoming an important part of our daily lives.

- Our school uses Twitter and Facebook to communicate with parents and carers. James Wright is responsible for all postings on these technologies

- Staff are not permitted to access their personal social media accounts using school equipment during school hours

- Staff are able to setup social media accounts, using their school email address, in order to be able to teach pupils the safe and responsible use of Social Media

- Pupils are not permitted to access their social media accounts whilst at school

- Staff, governors, pupils, parents and carers are regularly provided with information on how to use social media responsibly and what to do if they are aware of inappropriate use by others

- Staff, governors, pupils, parents and carers are aware that the information, comments, images and video they post online can be viewed by others, copied and stay online forever

- Staff, governors, pupils, parents and carers are aware that their online behaviour should at all times be compatible with UK law

- It is made clear to staff through our code of conduct and safeguarding training that they should not contact students via social media (eg friend them on Facebook)

- It is the policy of St Nicholas Priory CE VA Primary School that <u>NO</u> child at this school should have a personal social media account

Systems and Access

- You are responsible for all activity on school systems carried out under any access/account rights assigned to you, whether accessed via school ICT equipment or your own PC

- Do not allow any unauthorised person to use school ICT facilities and services that have been provided to you

- Use only your own personal logons, account IDs and passwords and do not allow them to be used by anyone else

- Keep your screen display out of direct view of any third parties when you are accessing personal, sensitive, confidential or classified information

- Ensure you lock your screen before moving away from your computer during your normal working day to protect any personal, sensitive, confidential or otherwise classified data and to prevent unauthorised access

- Ensure that you logoff from the PC completely when you are going to be away from the computer for a longer period of time

- Do not introduce or propagate viruses

- It is imperative that you do not access, load, store, post or send from school ICT any material that is, or may be considered to be, illegal, offensive, libellous, pornographic, obscene, defamatory, intimidating, misleading or disruptive to the school or may bring the school into disrepute. This includes, but is not limited to, jokes, chain letters, files, emails, clips or images that are not part of the school's business activities; sexual comments or images, nudity, racial slurs, gender specific comments, or anything that would offend someone on the basis of their age, sexual orientation, religious or political beliefs, national origin, or disability (in accordance with the Sex Discrimination Act, the Race Relations Act and the Disability Discrimination Act)

- Any information held on School systems, hardware or used in relation to School business may be subject to The Freedom of Information Act

- Where necessary, obtain permission from the owner or owning authority and pay any relevant fees before using, copying or distributing any material that is protected under the Copyright, Designs and Patents Act 1998

- It is essential that any hard drives which may have held personal or confidential data are 'scrubbed' in way that means the data can no longer be read. It is not sufficient to simply delete the files or reformat the hard drive. Whoever you appoint to dispose of the equipment must provide a **written guarantee** that they will irretrievably destroy the data by multiple over writing the data.

Telephone Services

Mobile Phones

- You are responsible for the security of your school mobile phone. Do not leave it unattended and on display (especially in vehicles)

- Report the loss or theft of any school mobile phone equipment immediately

- The school remains responsible for all call costs until the phone is reported lost or stolen

- You must read and understand the user instructions and safety points relating to the use of your school mobile phone prior to using it

- School SIM cards must only be used in school provided mobile phones

- You must not send text messages to premium rate services

- Never use a hand-held mobile phone whilst driving a vehicle. Only genuine 999 or 112 emergency calls may be made if it would be unsafe to stop before doing so

Current Legislation

Acts Relating to Monitoring of Staff eMail

Data Protection Act 1998

The Act requires anyone who handles personal information to comply with important data protection principles when treating personal data relating to any living individual. The Act grants individuals rights of access to their personal data, compensation and prevention of processing.

http://www.hmso.gov.uk/acts/acts1998/19980029.htm

The Telecommunications (Lawful Business Practice)
(Interception of Communications) Regulations 2000

http://www.hmso.gov.uk/si/si2000/20002699.htm

Regulation of Investigatory Powers Act 2000

Regulating the interception of communications and making it an offence to intercept or monitor communications without the consent of the parties involved in the communication. The RIP was enacted to comply with the Human Rights Act 1998. The Telecommunications (Lawful Business Practice) (Interception of Communications) Regulations 2000, however, permit a degree of monitoring and record keeping, for example, to ensure communications are relevant to school activity or to investigate or detect unauthorised use of the network. Nevertheless, any monitoring is subject to informed consent, which means steps must have been taken to ensure that everyone who may use the system is informed that communications may be monitored. Covert monitoring without informing users that surveillance is taking place risks breaching data protection and privacy legislation.

http://www.hmso.gov.uk/acts/acts2000/20000023.htm

Human Rights Act 1998

http://www.hmso.gov.uk/acts/acts1998/19980042.htm

Other Acts Relating to eSafety

Racial and Religious Hatred Act 2006

It a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Sexual Offences Act 2003

The new grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. Schools should already have a copy of "*Children & Families: Safer from Sexual Crime*" document as part of their child protection packs.

For more information www.teachernet.gov.uk

Communications Act 2003 (section 127)

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

The Computer Misuse Act 1990 (sections 1 – 3)

Regardless of an individual's motivation, the Act makes it a criminal offence to gain:

- access to computer files or software without permission (for example using another persons password to access files)

- unauthorised access, as above, in order to commit a further criminal act (such as fraud)

- impair the operation of a computer or program

UK citizens or residents may be extradited to another country if they are suspected of committing any of the above offences.

Malicious Communications Act 1988 (section 1)

This legislation makes it a criminal offence to send an electronic message (e-mail) that conveys indecent, grossly offensive, threatening material or information that is false; or is of an indecent or grossly offensive nature if the purpose was to cause a recipient to suffer distress or anxiety.

Copyright, Design and Patents Act 1988

Copyright is the right to prevent others from copying or using work without permission. Works such as text, music, sound, film and programs all qualify for copyright protection. The author of the work is usually the copyright owner, but if it was created during the course of employment it belongs to the employer. Copyright infringement is to copy all or a substantial part of anyone's work without obtaining them author's permission. Usually a licence associated with the work will allow a user to copy or use it for limited purposes. It is advisable always to read the terms of a licence before you copy or use someone else's

material. It is also illegal to adapt or use software without a licence or in ways prohibited by the terms of the software licence.

Public Order Act 1986 (sections 17 – 29)

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence.

Protection of Children Act 1978 (Section 1)

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is a anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Protection from Harassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other.

A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Writing and Reviewing this Policy

Staff and Pupil Involvement in Policy Creation
- Staff, governors and pupils have been involved in making/reviewing the Policy for ICT Acceptable Use

Review Procedure
There will be on-going opportunities for staff to discuss with the ICT Team any eSafety issue that concerns them

There will be on-going opportunities for staff to discuss with the ICT Team any issue of data security that concerns them

This policy will be reviewed every (12) months and consideration given to the implications for future whole school development planning

The policy will be amended if new technologies are adopted or Central Government change the orders or guidance in any way

This policy has been read, amended and approved by the staff, Headteacher and governors

Adopted by governors on date: ………………………………

Signed ………………………………

Name ……………………………..

(On behalf of the Governing Body)

Review date: April 2019

Appendix 1: Legislation

Schools should be aware of the legislative framework under which this Online Safety Policy template and guidance has been produced. It is important to note that in general terms an action that is illegal if committed offline is also illegal if committed online.

It is recommended that legal advice is sought in the advent of an e safety issue or situation.

Computer Misuse Act 1990

This Act makes it an offence to:

- Erase or amend data or programs without authority;
- Obtain unauthorised access to a computer;
- "Eavesdrop" on a computer;
- Make unauthorised use of computer time or facilities;
- Maliciously corrupt or erase data or programs;
- Deny access to authorised users.

Data Protection Act 1998

This protects the rights and privacy of individual's data. To comply with the law, information about individuals must be collected and used fairly, stored safely and securely and not disclosed to any third party unlawfully. The Act states that person data must be:

- Fairly and lawfully processed.
- Processed for limited purposes.
- Adequate, relevant and not excessive.
- Accurate.
- Not kept longer than necessary.
- Processed in accordance with the data subject's rights.
- Secure.
- Not transferred to other countries without adequate protection.

Freedom of Information Act 2000

The Freedom of Information Act gives individuals the right to request information held by public authorities. All public authorities and companies wholly owned by public authorities have obligations under the Freedom of Information Act. When responding to requests, they have to follow a number of set procedures.

Communications Act 2003

Sending by means of the Internet a message or other matter that is grossly offensive or of an indecent, obscene or menacing character; or sending a false message by means of or persistently making use of the Internet for the purpose of causing annoyance, inconvenience or needless anxiety is guilty of an offence liable, on conviction, to imprisonment. This wording is important because an offence is complete as soon as the message has been sent: there is no need to prove any intent or purpose.

Malicious Communications Act 1988

It is an offence to send an indecent, offensive, or threatening letter, electronic communication or other article to another person.

Regulation of Investigatory Powers Act 2000

It is an offence for any person to intentionally and without lawful authority intercept any communication. Monitoring or keeping a record of any form of electronic communications is permitted, in order to:

- Establish the facts;
- Ascertain compliance with regulatory or self-regulatory practices or procedures;
- Demonstrate standards, which are or ought to be achieved by persons using the system;
- Investigate or detect unauthorised use of the communications system;
- Prevent or detect crime or in the interests of national security;
- Ensure the effective operation of the system.
- Monitoring but not recording is also permissible in order to:
- Ascertain whether the communication is business or personal;
- Protect or support help line staff.
- The school reserves the right to monitor its systems and communications in line with its rights under this act.

Trade Marks Act 1994

This provides protection for Registered Trade Marks, which can be any symbol (words, shapes or images) that are associated with a particular set of goods or services. Registered Trade Marks must not be used without permission. This can also arise from using a Mark that is confusingly similar to an existing Mark.

Copyright, Designs and Patents Act 1988

It is an offence to copy all, or a substantial part of a copyright work. There are, however, certain limited user permissions, such as fair dealing, which means under certain circumstances permission is not needed to copy small amounts for non-commercial research or private study. The Act also provides for Moral Rights, whereby authors can sue if their name is not included in a work they wrote, or if the work has been amended in such a way as to impugn their reputation. Copyright covers materials in print and electronic form, and includes words, images, and sounds, moving images, TV broadcasts and other media (e.g. youtube).

Telecommunications Act 1984

It is an offence to send a message or other matter that is grossly offensive or of an indecent, obscene or menacing character. It is also an offence to send a message that is intended to cause annoyance, inconvenience or needless anxiety to another that the sender knows to be false.

Criminal Justice & Public Order Act 1994

This defines a criminal offence of intentional harassment, which covers all forms of harassment, including sexual. A person is guilty of an offence if, with intent to cause a person harassment, alarm or distress, they:

- Use threatening, abusive or insulting words or behaviour, or disorderly behaviour; or
- Display any writing, sign or other visible representation, which is threatening, abusive or insulting, thereby causing that or another person harassment, alarm or distress.

Racial and Religious Hatred Act 2006

This Act makes it a criminal offence to threaten people because of their faith, or to stir up religious hatred by displaying, publishing or distributing written material which is threatening. Other laws already protect people from threats based on their race, nationality or ethnic background.

Protection from Harrassment Act 1997

A person must not pursue a course of conduct, which amounts to harassment of another, and which he knows or ought to know amounts to harassment of the other. A person whose course of conduct causes another to fear, on at least two occasions, that violence will be used against him is guilty of an offence if he knows or ought to know that his course of conduct will cause the other so to fear on each of those occasions.

Protection of Children Act 1978

It is an offence to take, permit to be taken, make, possess, show, distribute or advertise indecent images of children in the United Kingdom. A child for these purposes is a anyone under the age of 18. Viewing an indecent image of a child on your computer means that you have made a digital image. An image of a child also covers pseudo-photographs (digitally collated or otherwise). A person convicted of such an offence may face up to 10 years in prison

Sexual Offences Act 2003

A grooming offence is committed if you are over 18 and have communicated with a child under 16 at least twice (including by phone or using the Internet) it is an offence to meet them or travel to meet them anywhere in the world with the intention of committing a sexual offence. Causing a child under 16 to watch a sexual act is illegal, including looking at images such as videos, photos or webcams, for your own gratification. It is also an offence for a person in a position of trust to engage in sexual activity with any person under 18, with whom they are in a position of trust. (Typically, teachers, social workers, health professionals, connexions staff fall in this category of trust). Any sexual intercourse with a child under the age of 13 commits the offence of rape.

Public Order Act 1986

This Act makes it a criminal offence to stir up racial hatred by displaying, publishing or distributing written material which is threatening. Like the Racial and Religious Hatred Act 2006 it also makes the possession of inflammatory material with a view of releasing it a criminal offence. Children, Families and Education Directorate page 38 April 2007.

Obscene Publications Act 1959 and 1964

Publishing an "obscene" article is a criminal offence. Publishing includes electronic transmission.

Human Rights Act 1998

This does not deal with any particular issue specifically or any discrete subject area within the law. It is a type of "higher law", affecting all other laws. In the school context, human rights to be aware of include:

- The right to a fair trial
- The right to respect for private and family life, home and correspondence
- Freedom of thought, conscience and religion
- Freedom of expression
- Freedom of assembly

- Prohibition of discrimination
- The right to education

These rights are not absolute. The school is obliged to respect these rights and freedoms, balancing them against those rights, duties and obligations, which arise from other relevant legislation.

The Education and Inspections Act 2006

Empowers Headteachers, to such extent as is reasonable, to regulate the behaviour of students / pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour.

The Education and Inspections Act 2011

Extended the powers included in the 2006 Act and gave permission for Headteachers (and nominated staff) to search for electronic devices. It also provides powers to search for data on those devices and to delete data. (see template policy in these appendices and for DfE guidance -
http://www.education.gov.uk/schools/pupilsupport/behaviour/behaviourpolicies/f0076897/screening-searching-and-confiscation)

The Protection of Freedoms Act 2012

Requires schools to seek permission from a parent / carer to use Biometric systems

The School Information Regulations 2012

Requires schools to publish certain information on its website:

https://www.gov.uk/guidance/what-maintained-schools-must-publish-online

Serious Crime Act 2015

Introduced new offence of sexual communication with a child. Also created new offences and orders around gang crime (including CSE)
